Professional Summary

Final-year BCA student at IMED, Bharati Vidyapeeth University (CGPA 9.5/10; Semester V: 10.0/10) with hands-on experience building RESTful APIs, relational database schemas, and multi-role web applications using Node.js, Express.js, PostgreSQL, PHP, and Python. Delivered an end-to-end institutional asset management system tracking 3,500+ assets. Merit scholarship recipient, competitive programming winner, and elected Class Representative. Seeking Software Engineering internships and entry-level roles at product-based companies and leading IT organizations.

Education

IMED, Bharati Vidyapeeth University, Pune

Bachelor of Computer Applications (BCA)

2023 – 2026

CGPA: **9.5 / 10** — Semester V: **10.0 / 10**

Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering, Java, Advanced Java, Web Development, Python, PHP, Data Warehousing & Data Mining

Experience

Backend Developer — Academic Project

Jan 2026 – May 2026

AWSM: Asset Workstation Smart Monitoring System — IMED, Bharati Vidyapeeth University

Stack: Node.js, Express.js, PostgreSQL, REST APIs, QR Code Integration, RBAC, Git

- Architected a centralized web-based asset tracking system managing **3,500+ institutional assets** across IT, furniture, and infrastructure, replacing manual register-based workflows.
- Engineered **15+ RESTful API endpoints** for asset lifecycle management (creation, transfer, reporting) using Node.js and Express.js with consistent error handling.
- Designed a **normalized PostgreSQL schema** (6+ tables) with indexing strategies, role-based access control (RBAC) for Admin/Staff tiers, and automated report generation.
- Integrated a QR-code identification module enabling scan-to-retrieve asset data via browser, eliminating manual ID cross-referencing for staff.

Projects

StayMate — Accommodation Management System

PHP, MySQL, HTML5, CSS3

- Built a multi-role property management platform (landlord/tenant workflows) with CRUD operations for listings, bookings, and tenant profiles, ensuring referential integrity across a normalized MySQL schema.
- Implemented server-side validation in PHP and a responsive CSS front-end, reducing administrative overhead and ensuring cross-device compatibility.

Expense Tracker — Personal Finance Tool

Python, HTML, CSS

- Developed a finance tracking application with dynamic expense categorization (food, transport, utilities), monthly trend summaries, and file-based persistent storage.

Technical Skills

Languages: Java, Python, JavaScript (ES6+), SQL, PHP, C, C#

Web / Backend: HTML5, CSS3, Node.js, Express.js, REST APIs, PHP, Bootstrap

Databases: MySQL, PostgreSQL (*schema design, normalization, indexing*)

Tools: Git, GitHub, Postman, Docker, VS Code, Linux CLI, Render

Currently Adding: Spring Boot, React.js, JWT/OAuth2, DSA (LeetCode)

Core CS: Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks

Certifications

Core Java with AI — Internshala (2024) — Full Stack Web Development — Internshala (2024) — Programming in

Python with AI — Internshala (2025) — SQL for Data Analysts with AI — Internshala (2026)

Achievements & Leadership

- **Dr. Patangrao Kadam Merit Scholarship (2025–26):** State-level academic merit award for outstanding CGPA performance.
- **1st Place — QueryXplode, C-Googly 2025:** Won institutional competitive SQL/database event; **Runner-Up** — Code Carnival 2026 (competitive programming) and Tech Quiz, C-Googly 2024.
- **Miss BCA Award:** Institutional recognition for excellence across academics, leadership, and extracurriculars.
- **Class Representative (2023–26):** Elected CR for three consecutive years, coordinating between faculty and 60+ students.
